Subject: Cultural Resources Concurrence Request, Staker Parsons Companies, Heber Bingelli Quarry, M/051/0015, Wasatch County, Utah

Dear Dr. Merritt:

The Division of Oil, Gas and Mining has received a proposal from Staker Parsons Companies to conduct large mining operations in portions of Sections 13, 14, 23, and 24 in Township 4 South, Range 4 East, SLM. Much of the area proposed to be included in the Notice of Intention has already been disturbed by extraction of sand and gravel, but undisturbed areas proposed to be disturbed were included in a survey for cultural resources. Enclosed with this letter is a copy of the cultural resources survey report which includes maps of the mine area.

In the surveyed area is a canal that was previously determined to be eligible for listing in the National Register of Historic Places with concurrence from the State Historic Preservation Officer. The portion of this canal through the mine property, however, has been piped, so it has lost all integrity. Based on this information, the Division has determined no historic properties are present or will be affected and asks for your concurrence with this determination. Please contact me at 801-538-5261 if you have questions regarding this request. Thank you for your assistance.

Sincerely,

Paul B. Baker
Minerals Program Manager
